
HARNESS
SELECTION GUIDE

Ready for every adventure

This guide will help you find the perfect harness for your dog—and all the adventures you take on together. Every Hurtta harness is built for comfort, control, and all-day wear, with smart adjustability for a great fit. Like all our gear, they're tested tough for real-life conditions and durability that lasts. Dogs give us their all, and at Hurtta, we carefully design every item to return the favour.

More control + More comfort = More go

This guide is here to help you choose the right harness for your dog and your shared adventures. Whether you're walking, hiking or training, every Hurtta harness is built for control, comfort, and durability. With smart adjustability and tough materials, they're made to handle the everyday—and the extraordinary. **Dogs are always there for us, and we're proud to create gear that's there for them.**

	 Easy to put on	 Light and slim	 Step-in	 For smaller dogs
	CASUAL HARNESS ECO	**CASUAL Y-HARNESS ECO**	**SCOUT HARNESS**	**SEEKER HARNESS**
Ideal for	The Casual Harness ECO is a durable, padded harness made with recycled materials and quick-drying neoprene to help keep your dog protected and comfortable wherever you roam.	Made with strong recycled materials, the Hurtta Casual Y-Harness ECO is a more sustainable version of one of our most popular, hardworking harnesses that you can rely on every day.	The Scout Harness is a lightweight step-in dog harness designed specifically for small dogs. Innovative handles and leash buckle shares the pressure comfortably and evenly.	Light, comfortable, and practical, this harness is the perfect choice for small and mid-sized explorers.
Highlights	• Comfortable fit • Made from recycled material • Weatherproof shell with comfortable neoprene padding • 3M reflectors on the entire length of the webbing • Adjustable chest strap • Dries quickly	• Comfortable fit • Front metal leash ring • Made from recycled material • Weatherproof shell with comfortable neoprene padding • 3M reflectors on the entire length of the webbing • Adjustable chest strap	• Step-in style harness • Exceptionally lightweight, soft and comfortable • Open design maximises front-leg freedom of movement • No Velcro fastenings that catch in the coat • Pulling force is evenly distributed across four points • Weatherproof Houndtex® membrane	• Lightweigth harness for small and medium sized dogs • Perfect for puppies: Soft and nearly unnoticeable in use • Comfortably padded without being heavy or stiff • The front ring helps to guide your dog to walk nicely • The front ring neatly tucks away in a sewn-in pocket when not in use

More control + More comfort = More go

This guide is here to help you choose the right harness for your dog and your shared adventures. Whether you're walking, hiking or training, every Hurtta harness is built for control, comfort, and durability. With smart adjustability and tough materials, they're made to handle the everyday—and the extraordinary. **Dogs are always there for us, and we're proud to create gear that's there for them.**

	Padded neckline	 For deep chested	 More control	 Escape proof
	SPRINTER HARNESS	**ROVER HARNESS**	**VENTURE NO-PULL HARNESS**	**SAFEGUARD HARNESS ECO**
Ideal for	The Sprinter Harness is designed for active and energetic dogs who need a lightweight yet secure harness that stays in place. Ergonomic fit follows the dog's natural body lines for comfort on everyday walks and faster-paced adventures.	Finally, a harness with adjustable, narrow front padding! The Rover Harness gives even large dogs the freedom to move naturally, with plenty of space for their front legs to stretch and stride without restriction.	The Venture No-Pull Harness helps to minimise strain when your dog pulls away and is suitable for daily walks.	Ideal for escape artist pups, rescue dogs, and leash-training beginners, this harness boasts a secure fit, adjustable straps, a durable handle, and reflective detailing—guaranteeing worry-free outdoor adventures for you and your furry friend.
Highlights	• Comfortable, close-fitting neckline keeps the harness securely in place • Padded and djustable belly section length • Fully padded neckline, back and front chest • Back handle makes it easier to control your dog • Flat design sits comfortably under a jacket • 360 degree visibility with 3M reflectors	• Adjustable front padding for a customized fit • Designed to allow unrestricted front leg movement • Remains securely in position without shifting sideways • Padded harness comfortable even for slimmer, leaner dogs • Durable shell fabric with a soft and comfortable lining	• 3M reflective pipings • Adjustable neckline and chest strap • Durable handle and stainless steel metal ring for the leash • Durable Nylon strap • Front metal leash ring • Stainless steel parts • Weatherproof shell with comfortable neoprene padding	• Escape-proof three-point design • Adjustable chest padding for a snug and secure fit • Sizing selection suited to all dog breeds • Soft, flexible and comfortable • Robust and weatherproof materials designed to last • 100 % recycled polyester fabric for sustainable quality
